[Evening Despatches to the Times.]

Not Probably Ended in New York—Terrible Fight with the Mob—11 Rioters Killed, 18 Wounded, and 35 Captured—Later News from Vicksburg—General Sherman Pursuing Johnston—Rebels Routed at Corinth.

PORTLAND, 17th.

The report that Provost Marshal Davis of Augusta, was shot is untrue.

NEW YORK, 17th—8 A. M.

Everything is reported quiet in this city this morning.

Lee's headquarters on the 15th were reported to be at Bunker Hill, between Winchester and Martinsburg.

Rebel officers say that Lee will not make another stand this side of Richmond. His trains are all sent to Culpepper. Our cavalry are after the train.

A later despatch to the Times says that our cavalry crossed yesterday, and now occupy all the passes as far South as Chester, Gap, and head of the rebel army at Front Royal. The entire rebel army is now moving down the valley as rapidly as possible—their trains of cavalry, artillery and infantry, and our cavalry harassing them. Hundreds of prisoners are being captured.

NEW YORK, 15th—via Albany

The placard posted about the streets last night, requesting persons whom the newspapers called rioters, to congregate this afternoon at Archbishop Hughes residence, was an unprincipled and senseless hoax, got up by sympathizers with the rioters.

Gen. Kilpatrick arrived last evening, and a force of cavalry is to be immediately organized for mounted patrol.

From military movements this morning, quietly made, there will be but little opportunity for the rioters to carry on their hellish designs, an attempt at which will meet with a most terrible check.

NEW YORK, 15th—10 A. M.

The probability is that the last fight of any consequence between the military and rioters took place last night near 29th street, where a military force had been sent to drive away the scoundrels plundering there. The mob concentrated strongly and the military withdrew.

Nearly every house for 3 or 4 blocks on both sides of the street, were filled with the mob, who fired bullets, stones and other deadly missiles on the soldiers.

The Times states that 15 members of the 7th regiment are reported killed by stones and brickbats. Some regulars were sent up as reinforcements when a terrible battle took place—Eleven rioters were killed, 18 wounded, and 35 taken prisoners. Two of the mob were run through with bayonets.

NEW BEDFORD, 17th.

Provost Marshal Hatch resumed the draft here in the first Congressional district this morning at 10 o'clock, with the town of Plymouth in Plymouth county. There is an efficient police force present. The city authorities have tendered the Marshal any aid he may need in carrying out the law, and it is reported that Capt. Hatch sleeps with one eye open and a brace of pistols under his head.

MEMPHIS, Tenn., 12th

Reports from the army at Vicksburg are all favorable; General Sherman is pursuing Johnston with every prospect of destroying his entire army.

General Dodge of Corinth, reports that he has routed the rebel force under Forest and Buffer which have been scourging the country north of his lines, killing, wounding and capturing quite a number.

CINCINNATI, 17th.

Morgan's rebel forces passed through Piketon yesterday P. M., going in the direction of Jackson. He is evidently making for the river via Pomeroy and Gallipolis.

TROY, N. Y., 17th.

The office of the Troy Times will be immediately re-organized, and with new type and fresh material. The publication of the paper will be resumed at once.

PORTLAND, 17th.

A fisherman reports that while coming up from Harpswell this forenoon at between 10 and 11 o'clock, and when about 15 miles South-East from Portland heard heavy firing apparently two vessels appeared to have heavier guns than the other.

The captain of the New York reports hearing about 10 to 12 o'clock, heavy guns south-westward of Cape Elizabeth, apparently 18 or 20 miles off, he being within 7 or 7 miles off in a thick fog.

THE HOLLOW SHELL.—Gen. Joe. Johnston has confirmed in the most striking manner the justness of Gen Grierson's statement that the confederacy is but a hollow shell. Hamed Gov Pettus and the confederate government worked for seven weeks to gather a force large enough to compel Grant to raise the siege of Vicksburg. Davis, in a speech at Vicksburgh a few months ago, expatiated on the transcendent importance of the place and declared that it should be held at all hazards. He has evidently exerted himself to the utmost to keep his promise. Gov Pettus issued an excited appeal to the citizens of Mississippi after the fall of Jackson to come forward and save their State, which would be at the mercy of the foe, if Vicksburg should fall. Johnston has scraped together all the forces, regular and irregular, that he could raise in Mississippi, Alabama, Georgia and South Carolina, and has drawn away a part of Bragg's army, and yet so completely had the whole country been stripped of its able bodied men, that Johnston has scarcely been able to annoy the rear of Grant. There could be no better proof of the fact that the capacity of the South to furnish troop is exhausted. It has raised its last army. Wherever our troops penetrate into the interior; they find the shell as hollow as Grierson found it in Mississippi. Grant and Banks can now dispose of all the forces west of Georgia. Rosecrans's army is largely superior to Bragg's. If Lee's army should be broken up the armed power of the rebellion would make but a sorry show. *Providence Journal.*

PRECAUTIONARY MEASURES IN RHODE ISLAND. In view of the disturbances in New York and Boston, Gov. Smith of Rhode Island has ordered 800 men of the Second Brigade to be detailed for special service. Detachments from the brigades of Gens. Arnold and Turrettet have also been ordered for the purpose of protecting property of the State and preserve the peace. The Providence Journal says that city was quiet Tuesday night.

TOO FAST. The Washington Republican tells the following story, the incidents growing out of the order banishing the secessionists of Alexandria—

Many of the persons who were ordered away had sold their property before they received notices to quit loyal domains. We understand that a lady whose name we will not mention, not being able to dispose of her movables, took an axe, and, with the assistance of several servants, demolished every article of furniture which she possessed. She even went into the garden and destroyed its beautiful shrubbery.

Her house was furnished in the most stylish splendor. The grounds which environed her residence were redolent of flushing exotics. Everything, however, became the wreck of her vengeful feelings. She was determined that the "Yankees" should not possess and enjoy a home upon which she had lavished such profuse attention.

The appointed time at last came when she must leave the sacred precincts of Alexandria. She bade adieu to the scenes of her childhood, once so charming, but now made odious by "vandal hordes." The order directing the boat to a Southern destination was, however, rescinded.

The boat, with the secession cargo, returned to the place of departure, and, lo! in what a plight was our lady friend. She had no home. By her own hands it had been destroyed.

☞ Among the drafted from Tisbury is Benj Dexter, who is certainly in luck. He was in the whaler Ocmulgee, of Edgartown, captured and burned off Fayal by the Alabama. Put on shoreout that Island, he shipped on board the Kate Cory, of Westport, and again fell among the Confederate thieves off Fernando de Noronha. Returning, he shipped as second mate on board the ship Emily Morgan, and now is drafted, but—he sailed about a week since, and will hardly receive the Provost Marshall's notice.

THE REPORTED SUSPENSION OF THE DRAFT. The Tribune's Washington correspondence of July 15th states with reference to the rumored suspension of the draft, that all such reports are unfounded, and that the President declines to succumb to the mob. The writer says

"In reply to inquiries this evening, the President said that his purpose was to enforce the draft under all circumstances, and that dispatches were sent to New York last evening in this effect. The President is also reported to have said that if the enforcement of the draft is stopped in New York City by a mob, the government is not in fault until the State authorities have had ample time to show that they cannot quell the disturbance, and that it will be time enough for the government to come to the rescue when the State fails to do its duty. Hence, the request of several Senators and Representatives to put New York under martial law, and under command of Gen. Butler or Gen Wadsworth is refused."

VARIOUS ITEMS

As the Providence Journal says: "The superiority of Grant's official letters to Pemberton's, in the correspondence respecting the surrender of Vicksburg, is very marked. In temper and courtesy Grant is as far above his opponent as he is in military skill. Pemberton is by nature a 'fussy' man, nervous and irritable. And, it must be confessed, the circumstances were rather easier for a patriotic patriot to be in good humor than it is for a northern man, commanding an army of traitors, worn and worried by a long and trying siege, and at last obliged to succumb. Still Pemberton's peevishness was not dignified or becoming."

The St. Louis Republican says: "To us of Missouri Vicksburg is of incalculable value. It secures the State against another formidable invasion. It convinces the sympathizers in our midst that it is futile any longer to expect aid from the Confederate troops who have been hovering along our Southern border ever since the war commenced, threatening to march to Jefferson City and St. Louis. It compels the mischievous spirits of the interior to put a peaceful face upon their disappointments."

The Taunton Gazette says the boys of that town meant to make the best of the draft and have got this song ready to sing in camp at Springfield:

"I'm a raw recruit, with a bran new suit,
And three hundred dollars bounty;
I'm going down to Springfield town
To fight for Bristol County."

The Bishop of Oxford, speaking at a meeting in London, strongly condemned the use of "selfish pews" in churches, which, said he, "showed that the spirit of the world had entered into the house of God."

We are informed, says the Wheeling Intelligencer of the 10th inst., by dispatches from Gen Kelley's headquarters to-day, that he made the march of forty miles to Hancock in one day, and that a small detachment of his cavalry under Capt. Greenfield and Lieut. Kelley, captured a train of fifteen wagons, sixty mules, two officers, twenty men, and twenty horses, within four miles of Williamsport. He had four men wounded—none killed. Several of the enemy were killed and wounded. The General's prompt and rapid movement is highly commendable, and argues well for the future.

LYON'S KATHAIRON.
Kathairon is derived from the Greek word "Kathairo" or Kathairo," signifying to cleanse, rejuvinate and restore. This article is what its name signifies. For preserving, restoring and beautifying the human hair it is the most remarkable preparation in the world. It is owned and put up by the original proprietor, and is now made with the same care, skill and attention which gave it a sale of over one million bottles per annum.
It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.

POOR RICHARD'S
EYE AND EAR WATER.
This is the Best Preparation in the World!
READER, are you aware that every time you think, speak or act, you draw on your eyes for strength to do so? Now you are debtor to them, and if they have not arrested your body and shut it up in the prisoner's disease, remember they must as surely will if you do not satisfy their claim (which is a small one) for all the services they render to you continually. They are crying to you for help every blood shrunk as a voice. Hear their cry, and save yourself by giving them. Give them a drink of POOR RICHARD'S EYE WATER, Morning and Night. This is all they ask, and they will positively keep your body out of the prison house of disease. They do not want to lose time in explanations. Try them and prove them. By faithful performance, Deafness can be cured and prevented—Bathe both eyes and ears.

A Remarkable Cure in Bangor.
I, W. H. PRITCHARD, do certify that my wife Esther S., has had Weak Eyes from childhood, caused by inner ac. One year since a lump appeared on the back of her eye. It increased to the size of a large pea. Becoming somewhat alarmed about the progress it was making I took my wife Mrs. M. G. BROWN, at the Exchange. She told me she could remove it, and further strengthen her eyes. Mrs. B. applied her medicine at seven o'clock in the evening, and at nine o'clock the lump was gone. We could see no more of it. My wife can now see people walking on the other side of the street which she could never do before. She has always had headache when reading in a carriage. Yesterday, when riding in a carriage, she had no return of headache. My own eyes were treated two or three times by Mrs. Brown. I find them much strengthened. W. H. PRITCHARD

UNION NOMINATION.

FOR GOVERNOR

SAMUEL CONY.

Where we Stand.

It is undeniably a subject for regret and mortification that Lee's army should have been allowed to escape without a total defeat, and the fact lends loyal men to cast for a Grant or a Rosecrans on the Potomac for a single campaign, but the country should look not at the slight drawbacks to our arms, but at the vast advantages which have been gained in the Union cause within the past month in almost every quarter where active operations have been going on. It is not too much to say that while some of the croakers and croakers at the North have apparently considered the fate of Lee a foregone conclusion of defeat to the Union army, the result which we have announced has not within the past twenty or thirty days have given the rebels a blow from which it seems almost impossible for them to recover. Look at their position, at their position and prestige, and also of force in the first place, Lee has been utterly and completely defeated in one great purpose of a Northern invasion, and driven back with a broken and demoralized, if not demoralized, army—certainly weakened in numbers of over one third of its numbers. From being the greatest and best army of the Confederacy, flushed with success, it has been reduced to a repulsed and flying body, with barely men enough to make a successful retreat from a victorious general two victorious to attack. The accounts of the rebel army of Virginia in the disastrous attempt at invading the North, cannot be less, one way and another, than 35,000 men. The accounts now generally agree upon that number. It is true, the remnant of this army ought to have been attacked and cut to pieces if possible, but we are thankful for what we have done. That was certainly enough for special thanksgiving to God.

Now, when we turn to the Mississippi, we find that within twenty days, the important positions which the rebels had on that river have been surrendered to our arms, with all their men and munitions; and that promptly following the surrender of Vicksburg, and simultaneously with the fall of Port Hudson, the famous rebel General Joe Johnston was overtaken and defeated by General Sherman, with a loss of 9000 men, and is still pursued, with a probability of utter defeat. The news of Vicksburg and of Port Hudson, it was admitted by Jeff Davis himself, would prove disastrous to the Confederacy, by cutting off entirely the rebel States of the West. But independent of this great gain of position, it must be remembered that in these great successes on the Mississippi, we have absolutely captured 50,000 of the rebel troops, and the rebel loss before the surrender of the two places must have been from 6,000 to 10,000 more. We safely put down the total rebel loss on the Mississippi, in men, at 60,000, with vast quantities of guns and supplies. In Lee's disastrous campaign, their losses are near 40,000 more. So that we have a grand rebel loss, in less than thirty days, of from 90,000 to 100,000 men. Is it possible that the rebel armies can stand such depletion as this, or that the "Confederacy," thrice swept by the scythe of death, can again fill up its shattered ranks? The loss above named must equal nearly one-third of its entire effective force.

In this summary of our recent successes, we have not referred to the advance of Bragg and the retreat of Bragg, which, of course, have not to the new attack upon Charleston now going on. In the former we have no precise figures to show the amount of rebel loss, and the latter, although thus far successful, may prove a failure in the end. But without reference to these points, we certainly have obtained successes of the greatest magnitude, and which ought to prove of vital importance to the cause. Let us not, then, ungratefully refuse to see and acknowledge the greatness of these victories, simply because we have not destroyed the whole of Lee's army. Were it not for the diversion which the Northern traitors are now making by means of mobs, the rebel cause would to-day be utterly desperate, and the rebel leaders would beseeching for terms. That the Government and the loyal people of the North will put down these mobs, (which it is certainly for the interest of every democratic as well as Republican property owner to have subdued) there can be no doubt. The rioters of New York city are even now in the grips of the military power. In Boston, a mob has never a chance of living three days at any time, and in other places, vigorous measures will at once be taken to meet this first demonstration. Much property has been and may be destroyed; but the law will be vindicated and the power of the government maintained—and the deluded men who commenced these disturbances will have to thank those who instigated them to violence, for the blood and the life inevitably lost by them and theirs in the conflict.

THE MORTIONS. A private letter from Helena Island, June 30, says:

You want to know where the monitors are. I can tell you where three of them are: they lay right in front of our camp, about 600 yards from it. They are passing five vessels there from us. Gen.

☞ Rev Mr. Eliot, of this city, is to preach the funeral sermon of Surgeon F. S. Holmes at Falmouth, to-morrow afternoon.

☞ Miss Emma Hardinge, trance medium, from Philadelphia, will speak at the Pioneer Chapel to-morrow afternoon and evening.

CHANGE OF TIME—INTER ROUTE. The steamer Daniel Webster on and after Monday next, will leave here at 6 o'clock, A. M., instead of 7 o'clock.

A SUPERIOR DRAMATIC ENTERTAINMENT will be offered to our citizens next week, as may be seen by advertisement. The eminent actor, Mr. E. L. Davenport, and the talented tragedienne, Mrs. E. L. Davenport, both favorites on the Boston Stage, will be aided by a select corps from the various theaters in that city. The performances will be of a high character.

☞ The band will play at the corner of Union and High Streets this (Saturday) evening.

☞ Officers and soldiers of the Second Maine, see "Special Notice" column.

CHEAP FARES TO CALIFORNIA. The Cunard steamer which leaves New York July 23d, will carry passengers at the following extremely low rates: First Cabin, $140; second, $145; steerage, $40. To secure passage at these rates it will be necessary to apply to Captain William Lowes, 22 West Market Square, who can engage them, otherwise passage may arrive at New York and find themselves disappointed.

LATER BY TELEGRAPH. The last act of the Congressional Society, Orono, which is a better than evening, which will embrace all the interesting conferred usually given at similar entertainments. Probably quite a number will go from this city.

A MORNING FRATERNITY WAS ROBBED. P. M. Blake, Esq., dealer in gold and silver, recently purchased a $40 gold watch—$170 in amount—consisting of American, Spanish, French and South American coins—and comprising part of a large lot which has been buried twenty-five years in a cellar in one of our country towns—the father of the family dying, the mother revealed the fact of their secret being buried in the cellar, and it was taken up and divided among the heirs. The sum stated to Mr. Blake was one of the shares. It was turned in bags, all of which had decayed, and the silver is, much of it, turned dark in color, and partially corroded.

CHRISTIAN COMMISSION. There will be a meeting of the Christian Commission at Hammond street Church, Sabbath evening, at half past seven. Rev. Mr. Schell will be just returned from the South, where he has been laboring as a delegate of the Commission—and probably will address the meeting.

ORGANIZATION OF STATE GUARDS IN BREWER. A large and enthusiastic meeting was held in Brewer Thursday evening for the purpose of organizing a Company of State Guards. About one hundred and thirty people volunteered—the company was organized by the choice of the following officers: Captain—S. H. Dorrien, 1st Lieutenant—Franklin Hall, 2d Lieutenant—Jas. H. Simpson.

LOOK TO THE SCARECROW. Mr. Dingley, Editor of the Lewiston Journal, and late speaker of the House of Representatives, having not been drafted, announces his intention to take the field, being one of the bolted nine, and to call upon his Republican partners to do the same. The idea is an excellent one, and must have an efficient effect upon the community and the State generally.

L. N. Prescott, Esq., publisher of the Farmington Chronicle and Postmaster of Farmington, has been drafted. Also Mr. Bean, local editor of the Argus.

A NOBLE CONTRIBUTION IN ELLSWORTH. We learn from the American that the very handsome sum of $100 was subscribed and paid in on Thursday of last week, for the benefit of sick and wounded soldiers, and the amount forwarded to the Boston office of the Christian Commission. In addition, the ladies of that patriotic town obtained and forwarded $100—this is a most generous contribution for a place so large as Ellsworth.

PENALTY OF DEATH. Private Wm. H. Lord, of Co. G, 17th Maine Regiment, was shot at Fort Preble Wednesday afternoon, for deserting, and attempting the life of his superior officer. He was signed in the vicinity of Bowdoin. He had deserted, five times previously.

FALSE REPORT. We ascertained by telegraph from Augusta yesterday, that there was no truth in the report published in the Portland Courier that Provost Marshal Dunn, of the 3d District, was shot on Thursday last.

☞ The Bath Times says the Harvest Moon made her first trip from Portland to that city in two and a half hours, running time.

☞ Captain W. H. Waldron, Co. I, 16th Me., was wounded at Gettysburg, July, and has arrived home at Lewiston. He was hit in the throat by a shot which remains in, but he is doing well. Captain Waldron is a printer and was formerly one of the proprietors of the Lewiston Falls Journal and subsequently of the Portland Advertiser. He led his company at Fredericksburg, Chancellorsville and Gettysburg.

☞ Seventeen telegraph operators from the Boston office of the American Telegraph Company have been drafted.

☞ Twelve compositors in the Boston Herald office have been drafted, and ten in the Journal office.

☞ Wendell Phillips Garrison, son of William Lloyd Garrison, was drafted on Monday, in Boston.

☞ One hundred regulars from Fort Independence, Boston harbor, were sent up to Concord—the home of Emilie Parker—on Monday, to be present at the drafting in that city, and accompany opposition in the accomplishment. This seems to be a return of compliments, for Mr. Pierce, when President, sent the regulars from Portsmouth to Boston to secure the return of Anthony Burns to slavery.

☞ Those having occasion to write to friends in California or anywhere in the Pacific states, should bear in mind that the ten cent postage fee is abolished, and a letter now requires only a three cent stamp.

☞ The New York mails appear to have got straight again. We received Thursday's daily papers last evening. Direct telegraphic communication is also open again by the American Telegraph Company.

☞ The unknown brig burnt on the 8th inst., off Gay Head by the pirate steamer (supposed the Florida) hailed from Cherrydale, and had a cargo of molasses.—Boston Daily Adv.

☞ Twenty rebel generals and eighty staff officers are among the 6000 prisoners bagged at Vicksburg.

BOWDOIN COLLEGE, July 6, 1863.

Editor Whig & Courier:

At the very unusual course of publishing, before the time of the Exhibition, a list of the Prize Declamations has been taken we would be well for the public to have the official list, which is as follows:

Edward C. Brown, Vassalboro.
Chas. B. Brown, Gorham.
John B. Cotton, Lewiston.
Hiram S. Dresser, Brunswick.
David A. Easton, Yellow Springs, Ohio.
J. Ellsworth Fairfield, Bath.
Melvin J. Hill, Buckfield.
Horatio B. Lawrence, Wiscasset.
Joseph A. Locke, Bucksport.
Joseph E. Moore, Boston.
Geo. T. Packard, Belfast.
Thomas Shepard, Bangor.
Moses C. Stevens, Lewiston.

[Our Brunswick correspondent must excuse us for not publishing the list of the writer. We prefer simply to publish the list as he sends it, as it is not to be supposed that he is in the matter was referred to subsequently, or of a sealed nature, as to indicate of the class.]

☞ Good people of Orland and vicinity (as we learn from the Bucksport Observer) held a large and enthusiastic meeting at the Church in Orland Village, last Saturday. The house was crowded, and there were many as many outside as were in the church. Stephen Ellis presided at the meeting, A. G. Leonard, Esq., Secretary, as follows:

☞ The Publication Committee pass over the name of Judge Cony (as he is nominated for Governor), and have a searching article in support of the nominee.

A BIG FOUNTAIN.—The Machias Republican says: "We have received a Kennebec melon, weighing two, of three of fine type, and covering very different pieces of real estate. It is made by St John Smith, and applies to property in Hancock and Washington counties, and mortgaged by Seth Tucker of Eastport.

HOW TO EXPOSE THE COLORED PEOPLE. We learn yesterday that one of the colored people, in this city, went to a dentist, after he was drafted, and had four of his front teeth extracted in order to disqualify himself for military service. We mention this, that—Press.

THE ORDEAL OF THE PEOPLE IN INDIANA.—A private letter from a Boston lady who is temporarily residing in Indianapolis, under date of July 1st says:

"You of course know that there has been the greatest excitement in Indianapolis, owing to the raid of Morgan and the report that Morgan was to attack Indianapolis. For five or six days twenty thousand men were in the city. All the disorganized troops had been sent to the southern portion of the state. When you place on other side the fact that the Union men generally in Indiana are mostly farmers and farmers in 1862 were not their fields ready for the harvest and even had gathered, wagons from the mills, coming from the country, I think Indiana may well be proud of her spirit.

Correspondence of Whig & Courier.

AUGUSTA, July 16th, 1863

General Hodsdon has furnished me with a copy of the following letter and resolutions of respect to the memory of Colonel Douty and the gallant officers and men of the 1st Maine Cavalry who have so gallantly fallen.

HEADQUARTERS 1st Maine Cavalry,
Boonsboro, Md, July 2th, 1863

Brig Gen Hodsdon, Adj't General of Maine.

General—I have the honor herewith to enclose resolutions adopted by the 1st Maine Cavalry, on the death of Colonel C S Douty and the officers and men of the Regiment, who fell upon the 17th, 19th and 21st days of June, 1863

I would respectfully request you to furnish the public press with a copy of the same

I am, General, very respectfully, your obedient servant,

MAJ STEPHEN BOOTHBY,
For the Committee

Resolutions adopted by the 1st Maine Cavalry on the death of Colonel C S Douty and the officers and the men of the Regiment who fell upon the 17th, 19th and 21st days of June, 1863

WHEREAS, It has pleased an all wise Providence to take from us Colonel C S Douty, who fell gallantly fighting at the head of his Regiment, at Aldie, Va, June 17th, 1863,

Resolved, That in him we have lost a beloved commander—ever zealous and watchful for the welfare of those under his command—a brave and faithful soldier, whose life was freely offered upon his country's altar—a faithful friend, whose many private virtues have won our admiration, and whose memory will ever be cherished as a proud legacy to this Regiment

Resolved, That we tender to his afflicted family our deep and heartfelt sympathy in this sad event, which has removed from them so affectionate a husband, so tender a parent

And while we offer this mournful tribute to the memory of our beloved Commander—also

Resolved, That in the death of Capt. George J Summit, who fell with him, and of the death of Lieuts George S Kimball, E H Taylor and Mark Neville, who fell at Middleburg, June 19th, 1863, we have lost brothers in arms, whose gallant bravery, generous virtues and tried friendship, will ever endear them to our remembrance They died the soldier's noblest death, bravely urging their men to efforts which brought victory to the cause for which they were battling

Resolved, That the example of the brave men from the ranks, who fell on the 17th, 19th and 21st days of June, should stimulate us to still greater efforts in the sacred cause for which we are contending, and that we will ever bear them in mind as those who shared our greatest dangers, and were among the bravest to fall on those eventful days

Resolved, That a copy of these resolutions be sent to the families of the deceased, and furnished the public papers of Maine for publication

MAJ. STEPHEN BOOTHBY,
CAPT S W THAYER,
LIEUT O A ELLIS,
Committee

Aldie, Va, June, 1863

The draft has progressed very quietly and orderly in this district. The admirable arrangement made by Capt Davis, Provost Marshal, in having the draft held in a large hall, where the public can witness its fairness and regularity, disarms any feelings of opposition on this account, which might otherwise naturally be engendered The frequent salutation of "How are you, conscript?" which greets the ears of the civil, and the general response of cheerful resignation from the happy subject, shows that no very hard feeling exists, and that the terrors of war have not yet hardened the heart

Though vague rumors of "resistance to draft" in this State have been circulated, it is generally believed that nothing of the kind will be attempted in any locality *Should* and such contingency arise, however, Government is prepared to visit terrible retribution upon the perpetrators and abettors of such treasonable business.

Very truly, JOHN SMITH

For the Daily Whig & Courier

Fourth of July at Patten.

Under the auspices of the ladies of the Congregational Church in Patten, the glorious Fourth was appropriately celebrated,

The fair was opened at 9 o'clock in the Academy Hall, and had many visitors during the day

An oration was delivered by Rev E C Carpenter of Houlton, from the steps of the Academy, which was listened to with close attention by a large audience

After the oration, the people marched, preceded by martial music, through a portion of Main street, and then repaired to Academy Hall, where an excellent dinner awaited them The ladies of Patten are noted for being super or cooks, and for making abundant provisions on all festive occasions On the Fourth, they fully sustained their well earned good reputation. Though the tables were twice, and some of them three times filled, yet there was no lack.

After dinner the articles of the Fair were sold, among which there was a small but very fine painting, by Mrs Benjamin, which brought $4,50.

In the afternoon the lovers of sport witnessed a wheelbarrow race, for purses of $3,00, $2,00 and $1,50 The wheelbarrow was loaded with 200 lbs, and the competitors ran 25 rods. The prizes brought out several who were nimble of feet.

In the evening there was a concert under the direction of Rev W T Sleeper, and an old folks' entertainment, which were well received. These were repeated on Monday evening to a crowded house, the whole terminating with a fine display of fireworks

After paying all expenses, the ladies found they had cleared one hundred and sixty dollars, which is to be appropriated to furnishing a new church that is soon to be erected by the Congregational Society in Patten

KATAHDIN

The Evening Post states that Mr C. Chauncey Burr, notorious as a "peace" orator, of the most malignant type, was seen circulating very freely in the mob, and afterward violently declaiming to the crowd

WHO MAKE A MOB LOOK FORMIDABLE. The Boston Journal says:

It was truly lamentable to the respectable and doubtless well disposed citizens flocking to the North End Tuesday evening, prompted by feelings of mere curiosity. It was not thoughtless young men alone, "going to see the fun," but staid and respectable citizens, who thus became part and parcel of a mob whose doings they doubtless deprecated and condemned. It cannot be too frequently or strongly enforced, in times of excitement, that those who join a mob or hang round its outskirts to see what is going on, directly lend their aid and countenance to the lawless They are with them and of them, stimulating them by the magnetic influence of numbers and encouraging the authorities in their efforts to disperse the riotous and keep the peace.

Correspondence of Whig & Courier

AUGUSTA, July 17, 1863

The news in the Portland Courier of Thursday evening in regard to the shooting of Provost Marshal Davis of this district, had no origin here, so far as can be ascertained. There is a great deal of indignation felt here on account of the canard, and its appearance will be very injurious to that paper, unless some satisfactory evidence of its origin can be made

The Governor has to-day made the following appointments—

Eugene Palmer of Baring, to be 2d. Lieutenant of company E, 7th regiment.

D H Roberts of Hudson, Assistant Surgeon, 8th regiment

Thomas H Emery, of Buxton, Assistant Surgeon, 11th regiment

Wallace Eaton of New Sharon, Assistant Surgeon, 19th regiment

George W Young of Waldoboro, 1st Lieutenant, company A, 21st regiment

Yours truly, JOHN SMITH

A letter from an Augusta correspondent (which we are unable to publish in full) says

"The report that Provost Marshal Davis was shot, is too ridiculous to comment upon A certain rebel went to Portland from here the day the report appeared in the Courier, and no doubt gave the false statement there The draft has progressed easily, with the exception of a short delay occasioned by an answer waited for from Washington, in relation to a clerical error A few are showing their heels, but it will not avail them anything, as Captain Davis knows when and how to bring them to terms

The barracks on Burnt Hill (you know the spot) are again assuming a lively appearance Officers and soldiers are quite busy receiving volunteers and drafted men"

ARCHBISHOP HUGHES TO THE NEW YORK RIOTERS The concluding portion of Archbishop Hughes' address to the rioters in New York is as follows

"I will appeal not only to them (the Irish) but to all persons who love God and revere the holy Catholic religion which they profess, to respect also the laws of man and the peace of society, to return to their homes, with as little delay as possible, and disconnect themselves from the seemingly deliberate intention to disturb the peace and social rights of the citizens of the citizens of New York. If they are Catholics, or of such of them as are Catholics, I ask for God's sake, if they have any respect for the Episcopal authority—to disso ve their bad associations with reckless men, who have lit le regard either for divine or human laws

†JOHN HUGHES,
Archbishop of New York"

FROM MEXICO The latest news from Mexico states that General Forey had issued a number of additional "edicts," and "orders," looking to the re establishment of law and order The popular belief—if not the popular expectation was—that some kind of a monarchy, under the protection of France, would be the result of the occupation of the Capital On Monday, the 29th ult, the people were to be called upon to decide what form of government they would prefer. Of course the question of preference was decided beforehand by Gen Forey, who had appointed a Triumvirate and Council of State, to aid him in administering the civil part of the government

WHAT A CATHOLIC BISHOP SAYS—AND THUS AN GOSPEL Bishop Bailey of the Roman Catholic diocese of Newark, N J, in reference to the riotous conduct so unhappily prevalent, says there is but one way to deal with it, and that is the Napoleonic one, namely, to use grape and canister until every disturber of the peace should return to his duty

THE ATTACK ON CHARLESTON An officer who was sent down to Port Royal by the Sumter's Court of Inquiry, writing on Tuesday, 7th inst to a friend in New York, says:

"Before I can communicate with you again, the fire of the war will have concentrated around the city of Charleston Admiral Dahlgren sends to morrow the advance guard of the attacking squadron, which contains, among other vessels, some machines intended to remove river obstructions, to the rendezvous off the bars The following is an estimate of the ships and force to be engaged.

Names	Tons	Guns	Officers and Men
Iron-clad New Ironsides	3,456	23	400
Steam frigate Wabash	3,200	10	400
Steam sloop Powhatan	2,415	12	300

Steam sloop Housatonic	1,240	12	300
Steam gunboat Paul Jones	868	9	100
Steamer South Carolina	1,155	8	250
Steam gunboat Chimocorora	800	9	250
Iron clad Montauk	834	2	100
Steam gunboat Cottonwood	958	9	250
Iron clad Patapsco	844	2	100
Do Nahant	844	2	100
Steam gunboat Sebago	856	3	90
Do Huron	507	4	100
Do Ottawa	507	4	100
Do Seneca	507	4	100
Do Wissahickon	507	4	100
Do Marblehead	507	4	100
Total	17,095	156	3,940

Sixteen ships barques and smaller craft are attached to the fleet, but the above is probably all the Admiral will put under fire. The iron clads are in excellent condition, workmen having been sent south from New York to put them in trim The fight will not be a rapid one, as it was supposed here, from inklings gathered from the Admiral, that the "job is to be handled carefully and finished well"

The Universalist Church in Orono, which has lately been remodelled and frescoed, is to be rededicated on Saturday evening, Aug 8th Dr Barstow in a private note writes that the appearance of the house is truly beautiful

NEW YORK, 17th

The riotous assemblages have been dispersed, business is running in its usual channels the various lines of omnibuses, railways and telegraphs have resumed their ordinary operations. Few symptoms of disorder remain except in a small district in the eastern part of the city, comprising a part of wards 18 and 21 The police are everywhere on the alert A sufficient military force is now here to suppress any illegal movement however formidable

Let me exhort you, therefore, to pursue your ordinary business, and to avoid especially all crowds, remain quietly at your houses, except when engaged in business or assisting the authorities in some organized force

When the military appear on the streets don't gather about it, being sure that it is doing its duty in obedience to supreme authority Your houses and places of business you have a right to defend at all hazards Yield to no intimations and to no demands for money at the price of your safety If any person warns you to desist from your accustomed business give no heed to the warning, but arrest the person and bring him to the nearest station house for punishment, as a conspirator

Be assured that the public authorities have the ability and the will to protect you from those who have conspired alike against your peace, against the government of your choice, and against the laws which your Representatives have enacted

(Signed,) GEORGE OPDYKE,
Mayor

JUY R. PHELPS, Secretary
Hartford, February 1st, 1863.

The losses during the year past (as was anticipated) have been unusually large, amounting to three hundred and forty-three thousand four hundred and eighty dollars, on one hundred and forty four lives Though the mortality is greater than last year, it does not exceed the ratio of the table upon which the premiums are predicated, and as in last year's business, the interest on the investment exceed the losses.

Of the war risks seven have been slain in the field or subsequently died of their wounds and seven have died of sickness in camp, or after being discharged, but the extra war premiums have exceeded the losses by such policies

Of the insured who have died during the year, 1 has paid but one premium, 1 two, 12 three, 1 four 5, five, 1, six, 5 eight, 7 nine, 2, ten, 4, eleven to twelve, 22 thirteen, 15 fourteen, and 15, fifteen premiums each

Three millions ninety-three thousand four hundred and ninety one dollars have been paid to the families and creditors of the insured, since the organization of the Company, and over two millions and one hundred and seventy five thousand dollars have been returned to policy holders in dividends *Two hundred and fifteen thousand six hundred and eighty eight dollars* have been paid in dividends during the past year These disbursements for dividends will indicate what the accumulation would have been now, had this Company, like some others paid no dividends except upon the death of the insured

This Company organized in 1846, on a system entirely *Mutual*, furnishes insurance in all the various forms, and to meet all the various contingencies for which Life Insurance is desired, at the cost of the policy holders

There is no *Stock or Guaranty Fund* to absorb the profits, but all the surplus is annually credited to the policy-holders as dividends in proportion to the amount of the premium they pay, and may be appropriated to the payment of renewal premiums, after the first four years This is the only Company in the United States which allows a dividend upon every payment of premium

The Directors have ordered the dividend of 1863 to be paid during the current year, as the renewals become due and are paid—by reduction of the premium of those who have paid all cash, or cancelling the notes of those who have given notes for one-half

The credit or note system as adopted by this Company, is liable to be misunderstood, being often misrepresented by persons soliciting for, or interested in Companies requiring all cash payments It is frequently represented that in a series of years "there will accumulate a large amount of premium notes as a debt against the policy to be handed over to heirs in payment of the policy or in lieu of money" Prejudice or inexcusable ignorance only could suggest such an illustration as applicable to this Company, as the annual payment of dividends adopted by this Company, applies in payment of the notes annually given for premiums, consequently the accumulation can never exceed four notes, and to provide for them these will be a corresponding number of dividends The assured, however, are not required to give a note, but can, if they prefer, pay all in cash, in which case the dividends will be applied to a reduction of their premiums, which, if the previous success of the Company is continued, will reduce the annual payments to nearly or quite one-half, after the fourth payment See the Report of the Massachusetts Commissioner, for 1863, for a complete vindication of the advantages to the insured, and the security of the Company, of the note or half-credit system of Life Insurance

PAPER HANGINGS for sale at Boston prices, by D. BUGBEE & CO.

This peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces, or is produced by an enfeebled, vitiated state of the blood, which in that ratio becomes incompetent to support the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously aggravated by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to fix the curse of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various forms, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia and liver complaints; or the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With healthy, full, or enriched blood, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and indeed, the whole catalogue of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be found the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The great importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best Sarsaparilla in alterative power. By its use you may protect yourself from the suffering and danger of these disorders. Purge the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out in any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this, its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

A Just Tribute to Merit.

AT INTERNATIONAL EXHIBITION, LONDON, JULY 11th, 1862,

Was the only "preparation for food from Indian Corn" that received a medal and honorable mention from the Royal Commissioners, the competition of all prominent manufacturers of "Corn Starch" and "Prepared Corn Flour" of this and other countries, notwithstanding.

MAZENA,

The food and luxury of the age, without a single rival. One trial will convince the most skeptical. Makes Puddings, Cakes, Custards, Blanc Mange, &c., without lard, eggs, flour or no eggs, at a cost so astonishingly the most economical. A light addition to ordinary wheat flour greatly improves Bread and Cake. It is also unequalled for thickening sweet sauces, gravies for fish and meat, soups, &c. For Ice Cream nothing can compare with it. A little boiled in milk will produce rich cream for coffee, chocolate, tea, &c.

Put up in one pound packages, with directions.

A most delicious article of food for children and invalids of all ages. For sale by Grocers and Druggists everywhere.

HUNNEWELL'S UNIVERSAL COUGH REMEDY

HUNNEWELL'S

UNIVERSAL

COUGH REMEDY

BASES its real claims to the confidence of the public by its perfect simplicity, and freedom from every component which in any way places restraint on its use. Day or Night, by Old or Young, but to find the real secret of its true character and results to which thousands can testify by its being made the Pocket, Bedside or Nursery Companion of all, and the enemy to all Throat and Lung complaints, by using it every hour, if necessary, or when there is the least tickling in the Throat or disposition to Cough. By such freedom of use it

CURES

Coughs,
Colds,
Sore Throat,
Bronchial Complaints,
Hoarseness

and all such, as when neglected, end in

CONSUMPTION!

To Public Speakers and Singers it is most valuable, as it goes to the foundation, clears the Throat, and prevents the prostration which follows great exertion.

As a Soothing Syrup its simplicity calls for special attention, as the most delicate infant may take it with the greatest freedom.

HUNNEWELL'S

TOLD ANODYNE

HUNNEWELL'S

This Preparation, by its splendid results, has shown the great necessity of a true Nervous and Spasmodic Remedy, which goes to its work on all such complaints, completely relieving the pains, and leaving no stand of debility behind.

As most complaints of this nature proceed from inward causes, they are reached only through the stomach, and in most of them, time and money is wasted by the use of Liniments and Lotions.

Let this preparation be fairly tested and it will be found worthy the name and fame of a true

ANODYNE!

IT CURES

Neuralgia,
Rheumatism,
Gout,
Tooth Ache,
Ear Ache,
Nervous Head Ache,
Distress after eating,
Fits,
Histeria,
Nervousness,
Spinal Complaint,
St. Vitus Dance,
Cholera Morbus,
Pains in Stomach and Bowels.

also, the chief of all causes of disease and insanity

LOSS OF SLEEP!

☞ To the Sleepless Invalid it gives the most refreshing sleep.

To Females, suffering the pains of Monthly Menstruation, it completely relieves, while Nature's work is undisturbed. This is of great importance, as from this scourge dates most, if not all, wrecks to the Nervous System, and Chronic Female Complaints.

For Stomach or Tape Worms, it is a sure remedy.

For children, when Teething, it completely soothes the pain, by dilating with milk and rubbing the Gums. When very severe give it in 5 to 10 drop doses in milk, and it is a perfect relief.

HUNNEWELL'S

ECLECTIC PILLS.

This Valuable and Simple PILL rests for character on being the true type of a CATHARTIC—simple, though thorough in action, seldom requiring but a SINGLE PILL for a dose, or one at night and one at morning—acts without the least griping.

AND CURES

Dyspepsia,
Indigestion,
Billiousness,
Loss of Appetite,
Jaundice,
Humors, &c., &c.

For HEAD ACHE, when caused by foul Stomach, they are a perfect relief.

For WORMS are a perfect remedy.

As a FAMILY PILL they have no superior.
